

DCFTA AGREEMENT AND FACILITATING UKRAINE'S COMPLIANCE WITH INTERNATIONAL LAW

ACCESS TO GOODS MARKET

Agreement incorporates relevant **fundamental rules of WTO** regarding non-tariff trade barriers, e.g., of national treatment, ban of import and export limitations, order of state trade. This also concerns **reduction or cancellation of import and export duties**.

TRANSPARENCY

Allows interested parties to **comment on draft legislation; set up information or contact desks** where information on any measures of general application could be received on demand; **provide due process** of considering cases, decision making, including review or appeal of administrative action.

ENERGY TRADE

Given into consideration the Ukraine's membership in **the Energy Community**, which obliges to implement the most relevant EU legislation regarding electricity and gas. This concerns **internal price regulation, ban of double pricing, customs duties and payments, quantitative restrictions, transit, transmission and cooperation in infrastructure development**.

TRADE AND SUSTAINABLE DEVELOPMENT

Parties confirm their obligations to efficiently implement fundamental **Conventions of International Labour Organization and ILO Declaration** regarding the main principles and rights in the labour field. The goal is **to strengthen ties** in the area of trade, environmental security and social policy and **to promote further the extending of Ukraine-EU trade**.

TECHNICAL BARRIERS IN TRADE

Parties of Agreement confirm their obligations in terms of **the WTO Agreement regarding technical barriers**. Harmonization of technical standards would **reduce the existing non-tariff barriers** in trade, **increase the goods' quality** on Ukraine's internal market and encourage **the development of Ukraine's positive image** on international market regarding the quality of goods.
